Install Count

This is an approximated number of servers and users that have installed your application. These numbers are updated daily.

🏠 0 Servers

👤 0 Individual Users

Authorization Count

This is an approximated number of users that have OAuth2 authorizations for your application. This number is updated daily.

👤 0 Individual Users

Interactions Endpoint URL

You can optionally configure an interactions endpoint to receive interactions via HTTP POSTs rather than over Gateway with a bot user.

https://nice-example.local/api/interactions

Linked Roles Verification URL

You can configure a verification URL to enable your application as a requirement in a server role's Links settings

https://nice-example.local/verify-user

Terms of Service URL

A link to your application's Terms of Service

<https://my-cool-app.com/terms-of-service>

Privacy Policy URL

A link to your application's Privacy Policy
